DENOVA

MU-GST

GARMETNS STANDARD TIME

Favored by

Industry-leading companies

GST (GARMENT STANDARD TIME), IT'S A STANDARDIZED TIME MEASUREMENT TOOL THAT IS SPECIFICALLY DESIGNED FOR IE INDUSTRIAL ENGINEERS (IE) USE THIS TOOL TO CONDUCT JOB AND TIME RESEARCH.

GST CAN BE YOUR FACTORY'S AI-POWERED DIGITAL 'IE'. IT WORKS FASTER AND SMARTER THAN ANY TRADITIONAL SYSTEM, GIVING YOU INSTANT RECOMMENDATIONS & MAKE SURE YOUR DATA AND PRIVACY REMAIN 100% UNDER YOUR CONTROL AND SECURE—THERE'S NO NEED TO SHARE WITH ANYONE ELSE.

urce

ALL ROUND

Support SASS
17 Highlights
500+ Subfunctions
Connecting all process

USER FRIENDLY

Numeric code, easy to use
Multi factory & language
More user-friendly design
More user-friendly experience

AI Powered

Algorithms are more smarter.
Auto production scheduling.
Auto quotation analysis.
Auto salary settlement.

SECURE TECHNOLOGY

Massive process database.
Custom standard assignments.
One click cloud technology.
Skill improvement efficiency.

Easy to learn ✓	Productivity ✓	Fast (ROI) ✓
Easy to implement ✓	Data security ✓	Real-time ✓
Easy to integrate ✓	Multi language ✓	Global ✓
Easy to Customization ✓	Single purchase ✓	Proven ✓
Easy interface ✓	Local trainer ✓	Accurate ✓

100% IMPLEMENTATION OF THE PROJECT
IMPROVE PRODUCTION EFFICIENCY UPTO 20-30%

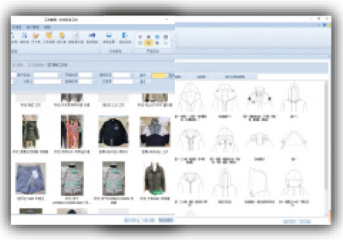

OUR TEAM COMPRISES OF HIGHLY EXPERIENCED CONSULTANTS WHO HAVE BEEN IN THE INDUSTRY FOR OVER A DECADE. WE SPECIALIZE IN PROVIDING CUSTOMIZED TRAINING AND OFFER REGULAR FOLLOW-UP VISITS TO ENSURE OUR CLIENTS ACHIEVE THEIR DESIRED OUTCOMES

WE OFFER 24/7 COVERAGE TO ENSURE THAT OUR CLIENTS' PROJECTS ARE COMPLETED ON TIME

GST - Major features

GST can be your factory's AI-powered Digital 'IE'. It works faster and smarter than any traditional system

With 16+ core functions and 300+ real-life applications, GST delivers a **full IE solution** designed to simplify operations and enhance transparency.

30k+ process standard library & Parts library

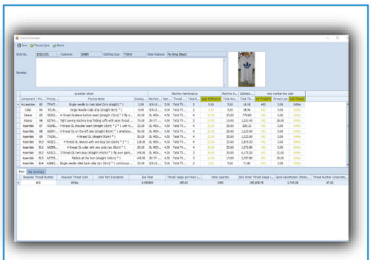

Process operation standards

Process SAM & Product style standards

quick analysis of parts libraries,

Role-based access with separate accounts for IE team members and IE managers

Controlled approval and rejection system

Auto thread Consumption

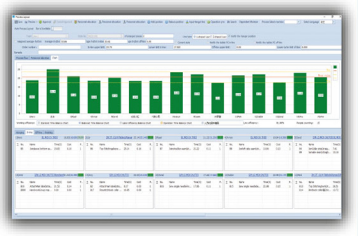

Automatically calculates the basic thread

Fully customizable based on factory specific IE standards and sewing practices

Ensures 100% usability within each factory.

Helps reduce 10–15% thread wastage,

Reduce sewing and production costs.

AI-Powered line layout

AI-Powered Fast & Intelligent Line Balancing

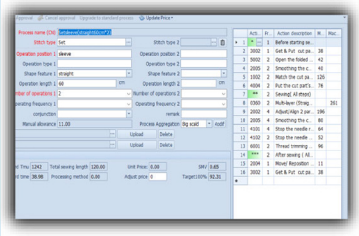

Instant Bottleneck Identification

Realistic Line Balance Based on Operators

Automatic Optimal Process Allocation

Fast Bottleneck Station Detection

High Line Balance Achievement

Numeric Action Code (NAC)

Most Updated Numeric Action Code (NAC)

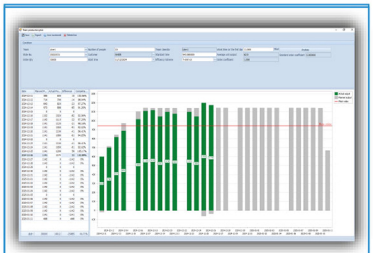

Easy to Learn & Easy to Use

Easy & Quick Implementation

Detailed Motion Analysis -Accurate SAM

Supports side-by-side video comparison

SAM & Hourly Target on One Screen

Production & Capacity

AI-Powered scheduling engine

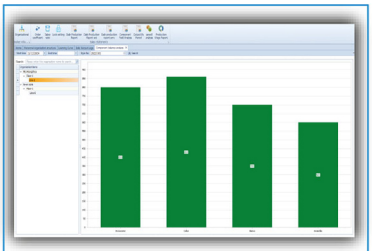

Dynamic learning curves

Increase 23% on time delivery orders

Daily Target VS Output

High taregt Achievement

Real time production and capacity

After Production line check

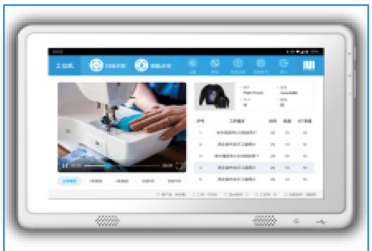

IE engineers can now analyze production

Quickly identify bottleneck processes

Plan VS Real out put balance check

Process output balance check

In line parts balance check

Connection & Integration

Seamless connection with mainstream

Connection with ERP-MES-Hanger-IoT

IE - Operator interaction

Realtime output tracking

Real-time NPT tracking

Real time target with skill matrix

Process validation

DATA Security

APP's model

Need to share data with any 3rd party

Data store 100% own server

Fast internal internet connection

Smooth performance

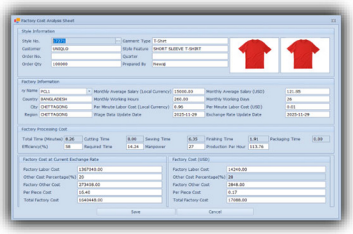

Individual customization

DENOVA

GST - Major features

GST can be your factory's AI-powered Digital 'IE'. It works faster and smarter than any traditional system

With 16+ core functions and 300+ real-life applications, GST delivers a **full IE solution** designed to simplify operations and enhance transparency.

Multiple costing

One click multiple costing.

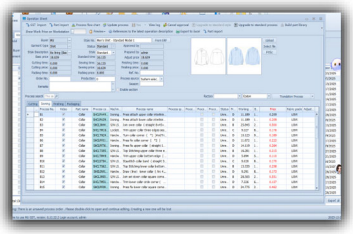

Full production & IE Both

Products Quotations

Factory Cost Analysis

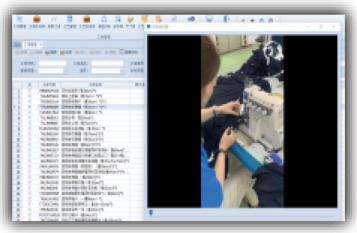

Products cost Analysis

CPM-EPM

AI-powered auto analysis

A one-stop closed-loop process from image input to style analysis and precise quotation, powered by visual AI to drive industrial upgrading.

Employee training system

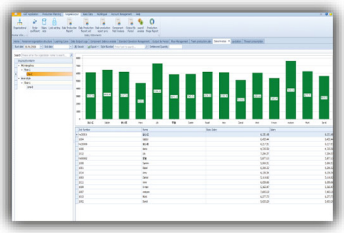

360-degree skill analysis

New employees can quickly started.

Real SAM video transfer to operators.

Video reference and motivation.

Targeted promotion for senior employees.

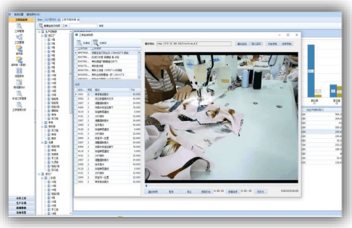

Salary Management

Automatic statistics on production data

Operator individual output monitor

Yearly performance and evaluation

Realtime tracking and analysis of live data

Real timr video

Real time on-site video

Backend motion analysis

IE - Operator interaction

Instant Bottleneck reason

Quality control from the actual source

Target & Output by period (Realtime / Manual)

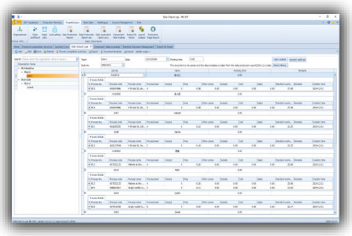

IE engineers can set daily and hourly target

can presented visual Kanban system

Displaying individual targets and output.

Intregration with GST -IE

Individual target set by MU-GST

Multi-dimensional production daily report

Generate daily reports and analyze

Production data in a timely manner

Line layout - Thread Consumption

Customizable operation bulletin

Multiple inbuilt report options

Multilingual version(Auto)

System supports multiple languages

English - Chinese - Vietnamese

1 click AUTO translation

Interface and data both .

DENOVA

Deeply cultivate the industry and create the future intelligently

Educational Contribution : Bridging the gap between education and industry for sustainable growth.

Leading global manufacturers and brand partners.

আমাদের সময়

একাডেমিক সহযোগিতা, গবেষণা, প্রশিক্ষণ এবং শিল্প সংশ্লিষ্ট অভিজ্ঞতা বৃদ্ধির লক্ষ্যে বিজিএমইএ ইউনিভার্সিটি অব ফ্যাশন অ্যান্ড টেকনোলজি (বিইউএফটি) এবং এমইউ বিগডাটা টেকনোলজি কো. লিমিটেডের মধ্যে গতকাল একটি সমঝোতা স্মারক স্বাক্ষরিত হয়। বিইউএফটির ভারপ্রাপ্ত উপাচার্য অধ্যাপক ড. ইঞ্জিনিয়ার আইয়ুব নবী খান এবং এমইউ বিগডাটা টেকনোলজির প্রতিষ্ঠাতা ও সিইও মিস্টার লু চুক্তিতে স্বাক্ষর করেন। বিজ্ঞপ্তি

20+ years of technology and practice accumulation, 500+ companies selected, 230,000+ users verified

International expert trainers combined with a local team.

Continuous updates and onsite training support, Sharing the most effective Chinese expertise

Over 95% of the demand will be fulfilled within one week, along with the implementation of global certification.

Supportedlarge pool of effective local and international manpower and fully ready GST-based IE implementation.

Verified by 500+ global cusomers. Worldwide customer and strong profile.

Regular 2–3 updates per month, supported by high-efficiency Chinese engineering.

Brand - Factory - Trade

Based on the lean management engine verified by enterprises with a production value of more than 30 billion yuan, it provides enterprises with intelligent full-link solutions
